

# Science Week is 20 years old

Help us to celebrate by hosting  
your own Science Week Party  
on 13th November.

**SCIENCE  
WEEK**

8-15 NOVEMBER 2015  
#scienceweek

**This year Science Week is 20 years old and you're invited  
to celebrate by having a Birthday Party in your Class or School!**

## celebrate 20 years of Science Week

Throughout Science Week, why not get each class or the whole school together to design and plan your party, and celebrate in style on Friday 13th November. When designing and planning a birthday party, you need to think about the venue, clothes, food and drink, party games, birthday presents, party decorations, party furniture and party music. Invite parents and guests from the local community if you can to help you celebrate 20 years of Science Week!

## Plan your Science Week Party

Follow the step-by-step guide for some great ideas, planning guides and science classroom resources to help make your Science Week Party a celebration to remember.

**Register your  
Science Week Party here**
