

# Get Ready for your Science Week Party

## Step 1: Register your Science Week Party

Register your Science Week Party on [www.scienceweek.ie](http://www.scienceweek.ie) to be in with a chance to win a Science Show for your school!

## Step 2: Plan your Science Week Party

Choose your theme and science activities for your pupils leading up to and during Science Week. Here are some of the aspects you will need to consider:

- Venue – where will the party be
- Food and drink – the party food, birthday cake, candles, drinks
- Games – party games and activities
- Clothes – what will you wear?
- Birthday /presents
- Decorations
- Music
- Furniture

Click on [Science Week Party Ideas](#) to help you plan your science activities for the week leading up to the party and for the party itself.

This year the theme for science week is Science Week 2.0: Design Your Future so why not imagine what your Science Week party would be like in 20 years' time, that's 2035! Click on [Future Proof Your Science Week Party](#) for more suggestions.

Don't forget the basics of any successful birthday party like where to have the party, who to invite, making sure that you have everything ready for the big day. Use the [Science Week Party Planner](#) to make sure you don't forget anything.

## Step 3: Party

Remember, a party is about celebrating and having fun. On Friday 13th November, celebrate science in your school and show the world that taking part in science is fun!

## Step 4: Share your Science Week Party experience

Throughout the week and on the day, take pictures or videos of your Science Week Party and your preparations. Think of a catchy science tagline. Submit your photos, science taglines (along with school name) on Twitter (use a school or teacher account)

Remember to use the Science Week Hashtag

**#Scienceweek**
