

Year	Award Holder	Research Body	Research Area	Project
2011	<a href="#">Jonathan Coleman</a>	TCD	PE	Up-scaling production of 2-Dimensional materials
2012	<a href="#">Martin Albrecht</a>	UCD	PE	Mesoionic carbene complexes for water splitting: Harnessing renewable energy sources
2013	<a href="#">Valeria Nicolosi</a>	TCD	PE	Ultrasonic Spray Deposition: Enabling new 2D based technologies
	<a href="#">John Nolan</a>	WIT		LutEin Algae Feasibility
	<a href="#">Debra Laefer</a>	UCD		Proof of Concept for rethinking tunnels in urban neighbourhoods
	<a href="#">Frederic Dias</a>	UCD		Calibration of extreme wave measurement on the ocean surface
2014	<a href="#">Valeria Nicolosi</a>	TCD		Ink-Jet printed supercapacitors based on 2D nanomaterials
	<a href="#">John Laffey</a>	NUIG		Medically licensed mesenchymal stem cells for acute respiratory distress syndrome.
	<a href="#">Eoin Casey</a>	UCD		Biofouling control in nano-filtration and reverse osmosis processes using a smart polymer approach
	<a href="#">Fergal O'Brien</a>	RCSI		miRNA-activated scaffold technologies for cartilage regeneration
