Face to face workshops in your school
or live online through Zoom

Whole staff CPD workshops are now available as part of the SFI Discover Primary Science & Maths (DPSM) programme and the European Space Education Resource Office (ESERO Ireland). In addition, CPD workshops for individual teachers will be available through education centres across the country.

Register your school today for your series of **three 2 hour workshops** for your staff, with a minimum of 10 teachers participating (small schools can partner with other schools).

These workshops can be organised as part of your “Croke Park” hours.

For more information, including commitment requirements and registration go to:

www.primaryscience.ie

100 schools which meet the commitment requirements will be accepted on a first-come, first-served basis.

CPD Workshops 2021/22

Our free CPD workshops will cover a wide range of topics across three sessions.

- ▶ **Workshop 1: Birds, Trees, Bees and Seasons. Topic - Biodiversity**
- ▶ **Workshop 2: Investigating Hot & Cold. Topic - Insulation and Materials**
- ▶ **Workshop 3: Journey into Space. Topic - Rockets and Space Travel**

Following the workshops, participate in the programme evaluation and the SFI Discover Science and Maths Awards.

This initiative supports the enhancing of teacher capacity as outlined in Pillar 2 of the STEM Education Policy Statement.

Register at www.primaryscience.ie

If you enjoyed our CPD keep an eye on our website for summer courses

"I thoroughly enjoyed the DPSM workshops. I learned loads and the workshops increased my confidence to teaching science using inquiry."
Teacher

"The workshops provided very practical investigations to carry out in the classroom and great ideas on how to engage pupils."
Teacher

"Excellent series of webinars. This programme really brings STEM to life. The facilitators provide great ideas to make STEM fun in the classroom."
