

## SFI-DEL INVESTIGATOR PROGRAMME – REPORTING GUIDELINES

---

### REPORTING TEMPLATE

The Standard Report Template which is available on SESAME is used to gather outcomes and impacts from awards made under the SFI-DEL IvP programme. Guidelines for completion of the standard template are provided at the following link ([Standard Reporting Guidelines](#)).

The report should include all of the activity and progress of the full research team (both Republic of Ireland and Northern Ireland team members). Northern Ireland co-applicants will have access to SESAME and can update their own Research Profiles, from which data/outputs can be pulled into the annual/final report. Team members and any relevant outputs that relate **solely** to the Northern Ireland team should be primarily attributed to “non SFI award” option on SESAME.

In their reports, SFI-DEL Partnership awardees are particularly encouraged to report on the added value of the partnership and on new collaborations and new joint funding applications / awards relevant to the programmatic objectives of the SFI-DEL Partnership.
